No assurance can be made as to the accuracy and completeness of any translations. If there is any inconsistency between a translation and the English version of this whitepaper, the English version shall prevail.

Team Summary

Why Pixis?

The Pixis Token's name is from Pix, which is also a derivated from pic(ture)

We believe that her nature embodies our entire project and is the best figure that portrays this environmentally friendly course of action.

Mission:

The token that rewards its users for uploading pictures!

Nowadays, there are a lot of places where you can share your personal pictures and the only thing you can gain is popularity or becoming an influencer.

What is offering PIXIS is a way to link this to a monetary way, by rewarding their users in BNB!

Vision:

Make the world **Pixiers!**

In our journey to achieve this vision, we will:

- Be focusing on developing new strategies, events, marketing campaign, partnerships with current competitors.
- Rewarding our investors & holders upon purchasing our coin, where the amount of rewards will be decided by the number of likes.

History & Overview

Key Information regarding Pixis Token

History:

Our history is based on the team's experience, as well as on the angel investors providing funds whenever is needed.

Our team has been focused on photography and searching for a way to make it easier for amateurs or passionate photographers through a sustainable way for them to get paid.

Overview:

The time has come for the team to build Pixis, in order to pursue its ambitions and objectives but this time using cryptocurrency.

We have been working endlessly to get where we are, now we are here and we are here to stay.

Nothing but pixis from here on!

The money stream, The use cases & the virtuous cycle

After researching many projects that have launched in the past, as well as projects that launch daily, we have reached an agreement.

The dev wallet funds will be used for paying the rewards to the users.

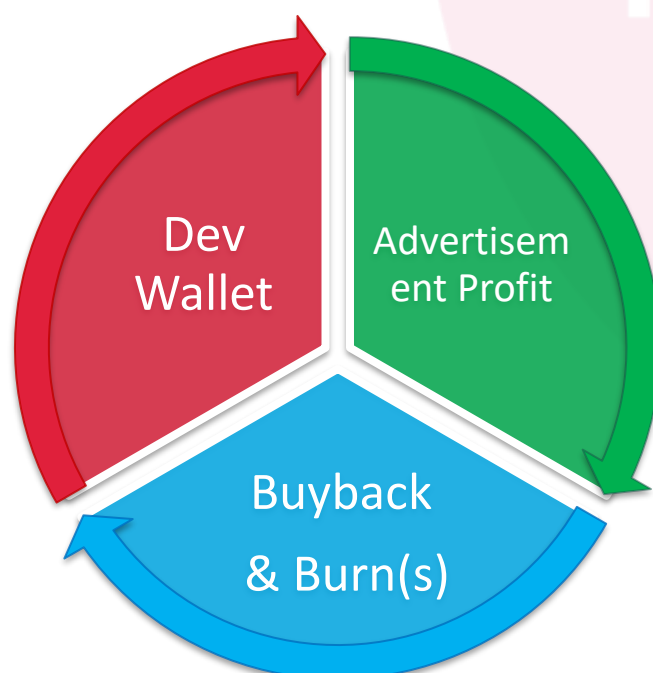

Through the userbase getting bigger, the profits made from advertisement & tax will be funneled back into our Pixis Coin in form of buybacks and burning all the bought tokens.

This will drain the supply slowly, giving more value to remaining tokens, thus keeping the chart green.

It also solves the funds issue, as we will never run out of money as the userbase will grow bigger and bigger

It is a vicious cycle that never ends; thus, chart will always be green.

- ☐ 1K \$PIXIS holders
- ☐ Buyback & Burn
- ☐ Marketing campaign
- ☐ Pixis Meeting

Q1 2023

Q2 2024

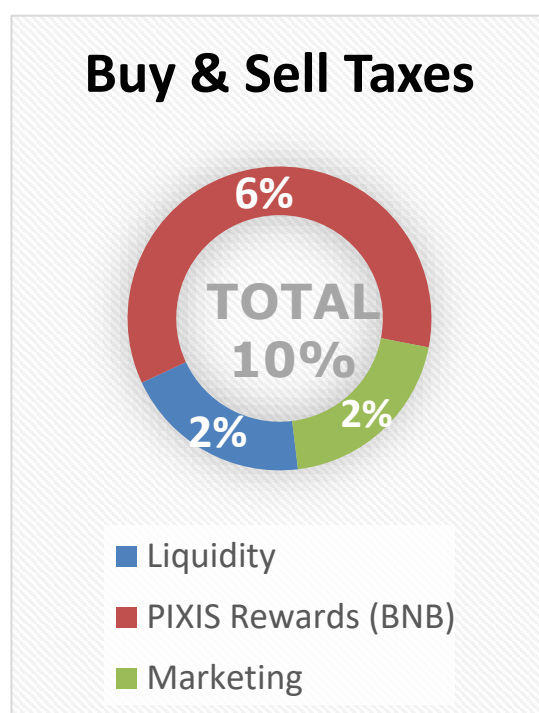

TO BE
ANNOUNCED

Tokenomics

Taxes

Our tokenomics are simple, green, and straight forward:

We trust our constant buyback system and funneled stream of income and funds!

Investors and holders as main pillars of PIXIS:

Our green holders will be rewarded as time passes by through a perpetual green chart and constant flow of profits.

Due to the nature of our tokenomics and money flow, we will have constant buybacks without the fear of running out of funds.

This will generate a constant stream of revenue and attract new buyers which in exchange will also generate a new stream of revenue.

Our holders are our most valuable assets, and we wish to reward them for being part of the Pixis community. We have many surprises planned along the way, as well as secret giveaways, and random rewards. All will come for those with green and steady hands.
